

Please do not implement any proposal that would lessen Indiana's Telephone Privacy Law. We used to receive 4 or 5 calls a day, now we only receive about 2 per month. They would even call on Sundays. The quality of our home life has improved since no longer receiving these annoying calls. The "Do Not Call Rule" used in Indiana has been very successful in stopping unwanted telemarketing calls.

Thank you for your attention to this issue.

Sincerely,

Patrick L. Jones & family
